# ellegante²

More Elegance...

More Ingenuity...

and the Most Exceptional Embroidery Experience

For the love of sewing

baby lock®

I have to admit, I'll never forget the first glimpse I took at the Ellegante. I was surprised by its outer beauty and its inner capabilities. And now, there's even more to discover with the Ellegante², like the Advanced Pivoting Feature. This unique feature raises the foot while leaving the needle down, holding your fabric in place for the most precise pivoting. The Ellegante² is a thrill to operate, from its technical advances to its time-saving features.

But don't just take it from me - there's no substitute for hands-on experience. I encourage you to visit your local Baby Lock Retailer and discover the Ellegante² for yourself.

Happy Sewing!

Nancy Zieman

FOR THE LOVE OF SEWING

# Introducing the baby Lock Ellegante²

At first glimpse, you may fall in love with the Ellegante² for its beauty. It captures your eye with its sophisticated design. But its outer beauty is only the beginning of the story.

A closer look will reveal the power and flexibility you want in an innovative sewing and embroidery machine. From the easiest-to-use LCD display with drag and drop capabilities to the only machine with built-in exclusive Nancy Zieman designs, the Ellegante² gives you what you need and more. Try any sewing and quilting techniques with the 16 included specialty feet, and change threads in a snap with the On Request™ Automatic Threading system.

Explore the Ellegante² and you'll discover that we've thought of everything. So embroider, quilt, sew and create in ways you've only dreamed of until now.

For the love of sewing.

# For The Love of Embroidery

While the Ellegante$^2$ has the capabilities to create virtually anything, you'll find advanced technology and built-in features to take your embroidery to the next level, plus convenient features that save time and make all of your embroidery projects more enjoyable.

## LCD Color Touch Screen

Fashionable yet functional, the 3-3/16" x 8-3/8" (4,096 colors) LCD screen displays colors, design sizes, multiple editing features and more. Plus, the easy-to-remove translucent cover allows you to view your design while protecting it from straying fingers.

## Built-in Design Library

You may have an extensive library of embroidery designs, but you can never have too many. Expand your design library with the 342 built-in designs, including 32 exclusive designs from Nancy Zieman.

## Fully Automatic Needle Threading

Quickly and easily change embroidery threads with the On Request™ Automatic Needle Threading System. Simply push a button and the Ellegante$^2$ does the rest by threading the needle in only 4 seconds. Switching out threads is so convenient, you'll never have to limit the number of colors in your designs.

## Editing On-Screen

Adjust patterns precisely using the Embroidery Edit mode. Resize, reposition and preview designs before sewing them out. Change pattern positions by simply dragging and dropping your selections on the LCD touch screen. It's that easy.

## Advanced Yet Flexible Technology

You can connect a USB mouse and hub to your machine to accurately select embroidery patterns, stitches and flip pages on the LCD touch screen. Select embroidery designs from a memory card, direct connect through your computer or utilize an external floppy, flash or CD-Rom drive. Plus, access designs stored in folders when using an external drive through the USB type A.

## Time-Saving Embroidery Features

If you're like most sewers, you always want more time to sew. The Ellegante$^2$ sews up to 1,000 stitches per minute. And you can set the machine to auto trim, so you'll never have to cut the jump threads from any embroidery design again. Plus, you can color sort border designs to eliminate extra thread changes.

## Embroidery in Any Size, Large or Small

Sometimes the smallest embroidered detail makes the biggest statement. And other times, size says it all. You can take your pick from four different hoop sizes, ranging from 3/4" x 2-3/8" to 7" x 11-3/4".

The art of sewing is constantly evolving. From heirloom and garment construction to home décor and fiber arts, there's no end to the new projects you can discover and create. Along those same lines, sewing innovations have made sewing easier and even more enjoyable, you'll wonder how you lived without the Ellegante$^2$.

## *Hundreds of Built-in Stitches*

Looking for that perfect stitch? The Ellegante$^2$ gives you 531 utility and decorative stitches to choose from. With thousands of combinations, the possibilities are endless.

## *Keep Eyes Strain-Free*

The five bright LED lights illuminate your work like never before.

## *Quickly Switch from Embroidery to Sewing*

Some projects require you to both sew and embroider. Now, with the flip of a switch, you can sew or embroider with the embroidery unit connected. There's no need to remove the embroidery unit to restart the machine.

## *Largest Sewing Bed*

The design of the Ellegante$^2$ gives you more room than ever to complete larger projects. The extra bed is 8-1/4″ width and 4-3/8″ height to the right of the needle.

## *Hands-Free Presser Foot Lift*

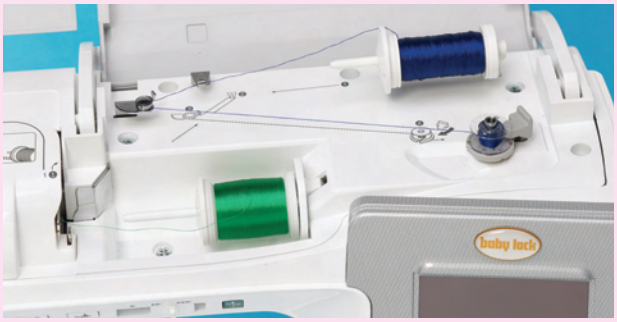
Raise the presser foot up to 10mm while allowing you to keep your hands free for pivoting and guiding. The foot can also be raised an additional 3mm manually.

## *Quick-Set Bobbin*

The top-loading bobbin case lets you focus on your sewing and it keeps thread in the correct position at all times, making it jam-proof.

## *On-Demand Bobbin Winding System*

Multi-task while you're sewing. The Ellegante$^2$ allows you to wind the bobbin while you continue to sew or embroider.



## Abundance of Quilting Stitches

The Ellegante$^2$ has the stitches quilter's love, like the pre-set 1/4" seam allowance, extra-long basting, three stippling sizes and a mock hand-picked quilt stitch. And to create perfect borders, choose from 17 built-in 42mm wide decorative stitches.

## Automatic Fabric Sensor System

This unique system detects the thickness of your fabrics and continuously adjusts the presser foot pressure for you while you're quilting.

## Advanced Pivoting Feature

Discover hands-on control and precision as you pivot fabric without interrupting your work. This feature automatically drops the needle down to hold fabric in place while leaving the foot up.

## Quilting Accessories Included

A straight stitch needle plate is included for fabric support and more accurate seams in quilt piecing. Finish off your quilts with precision using the included walking foot, quilting foot, open toe quilting foot and echo quilting foot.

## Timeless Techniques

From a child's christening gown to a special wedding dress, your heirloom becomes a keepsake for generations. Create delicate and elegant details with sewing techniques like a pintuck or entredeux. The Ellegante$^2$ offers all the techniques for the heirloom sewer.

## Heirloom Accessories

Pintucks are simple to create with the twin needle. Also effortless are tiny double turn hems, made simple with the narrow hemmer foot. Plus, a catalog of built-in lace embroidery designs can be used to make a traditional yet unique project.

## Decorative Stitches

Create your own combination of stitches using any of the utility and decorative stitches built into the machine. Once you have that perfect combination, save it to one of the memory pockets to be accessible at any time.

## Auto-Tensions

The special design of the embroidery bobbin case gives you the perfect tension adjustments automatically. Sew on delicate fabrics without worrying about the weave or weight of your fabric.

# Ellegante² Features

## Technology Features

- USB (Type A) allows connectivity with a mouse and hub
- USB (Type A) works with external floppy drives, flash drives and CD-ROM drives
- USB direct connect (Type B) to a PC
- Embroidery card slot
- LCD ergonomic color Touch Screen 3-3/16" x 8-3/8" (4,096 colors) with touch pen
- Full-color, rapid design image display
- On Request ™ Automatic Threading System threads in 4 seconds
- Advanced Pivoting Feature
- Automatic Fabric Sensor System
- Automatic thread cutter
- Quick-Set, Top-Loading bobbin with sensor
- Quick-Set bobbin winder
- Independent bobbin winding system
- Automatic sensors
  - Thread tension control makes adjustments to feed thread properly
  - Upper and lower thread sensors to alert when threads are broken
  - On-screen hoop sensor to recommend size of hoop
- 5 LED lights that illuminate the needle and work area
- Access designs stored in folders when using USB Type A
- Sewing speed up to 1,000 spm

## Embroidery Capabilities

- Built-in embroidery design library
  - 342 Embroidery designs built-in
  - 262 Baby Lock exclusives including 32 Nancy Zieman designs
- 120 Frame combinations
- 1 Large Floral Alphabet
- 14 Font styles including
  - 74 Exclusive script alphabet characters
- Embroiders up to 7" x 11-3/4" (180mm x 300mm) embroidery field
- Memory capacity 767KB/350,000 stitches
- Reads embroidery designs with a stitch capacity of up to 200,000 stitches per design
- Color LCD touch screen shows:
  - Design selection and placement using drag and drop capabilities
  - Estimated embroidery time display and stitch count
  - Needle position placement (1, 10, or 100 stitch increments)
  - Measurements displayed in inches or millimeters (mm)
  - Color separation
  - Thread color indicator
  - On-screen hoop size indicator
  - Low bobbin thread indicator
  - 300 Color names
- Embroidery speed up to 1,000 spm
- 8-Point trial check points
- Alternate bobbin case for pre-wound bobbins
- Resume feature
- On-screen grid
- Program thread cutter ON or OFF
- Embroider without removing the foot control
- Embroidery Stitch Count System-EMB.SCS
